Full payments: Partial is FALSE

MAD 0.00755: acceptable conformity

Partial payments: Partial is TRUE

MAD 0.04496: nonconformity

Actual share of payments

Expected by Benford's Law

Supplier payments dated in fiscal 2024 through 2026, split by the Partial column (a payment smaller than its invoice). Every partial payment belongs to an invoice of $1,000 or more, and most of those invoices are between $1,000 and $2,000, so their parts start with the digits 5 to 9 far more often than Benford's Law expects, and with 2 and 3 far less often.
