

Account 2060 Customer Deposits and Unapplied Cash joins receipts, credits on paid invoices, and refunds: every receipt passes through it, and every refund is paid from it.

Control points

- **C1** Every credit rests on a return received outside customer service
- **C2** Credits approved within the approver's authority
- **C3** Credits at the invoice price, for no more than was shipped
- **C4** The credit approver does not handle that customer's cash
- **C5** A clawback for every credit line, at the accrual's rate
- **C6** Refunds approved within authority, outside customer service
- **C7** A refund only of a credit balance the customer has paid
- **C8** Refunds to the payer's own method or account, net of open balances
- **C9** Cash applied promptly to the remitting customer's invoices
