43 FROM LaborTimeEntry AS It
44 WHERE It.LaborType <> 'NonManufacturing'
45 GROUP BY WorkMonth
46 ORDER BY WorkMonth;
```

	WorkMonth	DaysWithTime	DirectHours	IndirectHours	OvertimeHours
1	2024-01	13	1217.0	4931.0	503.0
2	2024-02	21	6873.0	97.0	535.0
3	2024-03	21	7338.0	0.0	731.0
4	2024-04	22	7677.0	80.0	707.0
5	2024-05	22	6539.0	70.0	733.0
6	2024-06	20	4215.0	2239.0	553.0
7	2024-07	22	3863.0	3179.0	957.0
8	2024-08	22	4441.0	3798.0	1308.0

Execution finished without errors.
Result: 36 rows returned
At line 34:
SELECT strftime('%Y-%m', It.WorkDate) AS WorkMonth,

The grid shows the first eight of the 36 months. Outlined: February to May 2024, with far less indirect time than the months that follow.
