Add data fields here

- 1 The ... below the visual types > Restore default visuals adds Card when the list lacks it.
- 2 Format visual > Visual > Callout > Apply settings to one card > Value > Display units: None, card by card.
- 3 The chart's More options > Sort by > Month, then Sort by > Sort ascending.

The real toolbar and pane show icons; the mock writes their names, and only a few of the visual types. The real report editor also shows the Filters and Data panes beside Visualizations.
