

Full payments: Partial is FALSE

MAD 0.00755: acceptable conformity

Partial payments: Partial is TRUE

MAD 0.04496: nonconformity

Supplier payments dated in fiscal 2024 through 2026, split by the Partial column (a payment smaller than its invoice). Every partial payment belongs to an invoice of \$1,000 or more, and most of those invoices are between \$1,000 and \$2,000, so their parts start with digits from 3 to 9 far more often than Benford's Law expects.
