

PurchaseOrderLine 12834
PO-2026-010468, line 1: ACC-MIR-0001 Foundry Mirror Glass Soft White
Quantity 36.00 at UnitCost 51.38

Goods receipt lines with POLineID 12834

GoodsReceiptLineID	ReceiptDate	QuantityReceived
16657	2026-02-03	20.33
17523	2026-03-22	15.67

SUM(QuantityReceived) = **36.00**

Supplier invoice lines with POLineID 12834

PILineID	Receipt line	Quantity	UnitCost	vs order
22917	16657	8.96	52.49	+2.16%
23890	16657	11.37	50.84	-1.05%
24865	17523	15.67	51.50	+0.23%

SUM(Quantity) = **36.00**

Matched: ordered 36.00 = received 36.00 = invoiced 36.00. Every invoice price is within 3% of the order's 51.38, the largest +2.16%.

The status of a purchase order line after the comparison

Status, in the order tested	Condition	Meaning
Exception: invoiced above received	invoiced above received	investigate
Exception: received above ordered	received above ordered	investigate
Not yet received	nothing received	an open order
Received, not fully invoiced	invoiced below received	an accrual: goods received not invoiced
Partly received	received below ordered	an open order
Matched	ordered = received = invoiced	complete

Compared row by row, receipt line 16657 (20.33) matches neither of its invoice lines (8.96 and 11.37); summed to the purchase order line, the three quantities agree. At a 2% tolerance, the first invoice line would be an exception.
