3

returns the date

- 1 Look up value: the key on the current row, `[@SalesInvoiceID]`.
- 2 Look up array: the column searched for the key, `SalesInvoice[SalesInvoiceID]`.
- 3 Return array: the column whose value is returned, `SalesInvoice[InvoiceDate]`.
- 4 If not found: the value returned when the key is missing, "No match".

Invoice line 10645 belongs to invoice SI-2025-007947; the lookup returns that invoice's date.
