SourceCounts | **R2 Cost** | R2 Gross to Net

Promotional discount by invoice year, rounded by year as in Step 2

Grand total: $723,253.10 of discount on 2,108 lines, so every promotion line is in a row and no (blank) row remains. The yearly totals in the chart are the PivotTable's column totals, rounded year by year, so they add to $723,253.11, a cent from the unrounded grand total.

Outlined: the second column of discount of promotions 2, 3, 5, and 6. Their orders were invoiced in the year after they ran.

The PromotionID filter has (blank), the lines with no promotion, cleared, so they are not counted.
