R2 Gross to Net | **R3 Volume** | R3 Customers

Outlined in coral: the largest difference from the expectation, promotion 2 (Accessories), 11.9%, which is 1.65 standard deviations. Outlined in teal: the smallest, promotion 3 (Strategic), -20.7%. The three promotions of 2024 have no year earlier, so their comparison reads n/a. Volume is the list amount ordered in the scope. Column J, the standard deviation as a share of the mean, is hidden.
