PriceOverrideApproval | Employee | **Ex 4.6**

Rows 1 and 2, and rows 8 to 13, which hold the counts by Status, are not shown. With Pending selected the slicer leaves 3 requests in view and none has an approver. Outlined: the request count and approver count in view, and the row of the Sales Manager (EmployeeID 6), who is also the only approver: 106 of 109 requests were approved by the requester (selected cell), and 3 are Pending.
