Result: 471 rows returned
At line 48:
SELECT WorkOrderNumber, Status, ReleasedDate, DueDate,

Outlined: the oldest past-due work order, WO-2026-011512, which the table still calls Released. The grid is scrolled to the top and shows the first 9 of the 471 rows the pane reports; the text not completed in the Completed column is the label that COALESCE gives a missing CompletedDate.
