WITH Monthly AS (

Outlined: rank 1, period 10 (October), $1,314,620.10 against $1,700,781.60, −22.7%, the largest decline; and rank 12, period 11 (November), $1,425,903.01 against $1,264,497.48, +12.8%, the largest increase. The RANK is in the same SELECT as the filter on Furniture and the last year, which is safe because the LAG was calculated in the Compared CTE; the editor is scrolled to the foot of the query.
