Result: 3 rows returned
At line 8:
SELECT pr.PayrollRegisterID, pr.EmployeeID, e.JobTitle,

Outlined: GrossPay and UsualGrossPay of the first row, register 840: $9,424.91 against $2,217.25, 4.3 times the usual pay, for employee 81, an Account Executive of the Sales cost center, terminated 2024-04-26 and paid on 2024-05-10. All three registers pay the same $9,424.91, charged to the Executive cost center, and only the first has a payment record. The result is wider than the window, so the later columns are drawn after scrolling right; the editor is scrolled to the foot of the query.
