Revenue by invoice date and by ship date

Year	Revenue	Shipped Revenue	Revenue by Ship Date
2024	27,313,723.48	27,313,723.48	26,358,117.76
2025	29,376,702.28	29,376,702.28	28,040,804.94
2026	29,756,420.08	29,756,420.08	28,528,117.59
(Blank)			3,519,805.55
Total	**86,446,845.84**	**86,446,845.84**	**86,446,845.84**

The (Blank) row holds the 439 Services lines. Design services do not ship, so the inactive relationship finds no ship date for them, and their revenue lands under (Blank) in the last column only.

Revenue and Shipped Revenue agree in every year, because both use the invoice date. Each year is lower by ship date mainly because Services drop out of it.

Report view, page Ex 14.2. The year 2027, which the Date table holds and the invoice lines do not, has no row: every measure is blank there. Outlined: the (Blank) row.
