**Exceptions, population, and rates by process and year**

| | 2024 | | | | 2025 | | | | 2026 | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | Exceptions | Population | Rate per 1,000 | Unexplained Rate per 1,000 | Exceptions | Population | Rate per 1,000 | Unexplained Rate per 1,000 | Exceptions | Population | Rate per 1,000 | Unexplained Rate per 1,000 |
| Journal entries | 16 | 266 | 60.2 | 52.6 | 12 | 288 | 41.7 | 34.7 | 15 | 297 | 50.5 | 43.8 |
| Payroll | 27 | 2,645 | 10.2 | 0.8 | 28 | 2,774 | 10.1 | 0.7 | 28 | 2,778 | 10.1 | 0.7 |
| Purchase orders | 11 | 3,921 | 2.8 | 2.8 | 6 | 6,545 | 0.9 | 0.9 | 8 | 8,366 | 1.0 | 1.0 |
| **Total** | **54** | | | | **46** | | | | **51** | | | |

**Rate per 1,000 by year**

**Unexplained rate per 1,000 by year**

**Fiscal 2026**

| Process | Exceptions | Population | Rate per 1,000 | Unexplained Rate per 1,000 |
|---|---|---|---|---|
| Journal entries | 15 | 297 | 50.5 | 43.8 |
| Payroll | 28 | 2,778 | 10.1 | 0.7 |
| Purchase orders | 8 | 8,366 | 1.0 | 1.0 |
| **Total** | **51** | | | |

**The total row shows no rate.** Population is blank across processes, so a rate that would mix them is never shown. Dividing all 51 exceptions of 2026 by all 11,441 documents would read 4.5, a figure no process has.

*Report view, page Ex 16.4, filtered to the 3 years of the window; the matrix and the table sort their rows by process name. Outlined: the total row of the matrix, which shows the exceptions of all processes and no population or rate. The matrix's grand-total column, which adds the years, is not drawn. The table of the model answer is by process, not by test. The page's text box is not drawn.*
