Mean absolute deviation by kind of payment

PaymentKind	Payments Counted	Benford MAD
Full	34,115	0.00755
Partial	5,749	0.04496
Total	**39,864**	**0.01295**

Read against Chapter 8's ranges: close up to 0.006, acceptable up to 0.012, marginally acceptable up to 0.015, nonconformity above. All payments, 0.01295, are marginally acceptable; full payments, 0.00755, acceptable; partial payments, 0.04496, a nonconformity. The slicer is set to None for the table, so choosing Partial leaves the three rows.

Report view, page Ex 16.5, with no kind of payment selected in the slicer, which Desktop draws as a list of check boxes. The chart shows all 39,864 payments through 2026-12-31; the digits 1 to 9 are the first significant digits. Outlined: the deviation of the partial payments. The page's text box is not drawn.
