

Test S6 for the largest refund, RF-2025-000097 (17,745.96) of the largest credit, CM-2025-000255: each document in the lane of the department whose people recorded, received or approved it, at its date, as the Timeline sheet lists them (the invoice is billing's, as the sheet puts it; no table records who prepared it). The credit was posted all to 2060, so 13,081.41 of the invoice was still unpaid on the credit date and on the refund date, 1 day after the invoice was due and before the applications of its last two receipts. The records show what happened and in what order, not why: the refund is a follow-up, not a conclusion.
