```

	WorkYear	LaborType	Hours	StandardHours	HoursPerStandardHour
1	2024	Direct Manufacturing	60449.0	70871.0	0.85
2	2024	Indirect Manufacturing	23188.0	70871.0	0.33
3	2025	Direct Manufacturing	57575.0	66109.0	0.87
4	2025	Indirect Manufacturing	35815.0	66109.0	0.54
5	2026	Direct Manufacturing	62764.0	66998.0	0.94
6	2026	Indirect Manufacturing	38473.0	66998.0	0.57

Execution finished without errors.
Result: 6 rows returned
At line 187:
SELECT h.WorkYear, h.LaborType, h.Hours, o.StandardHours,

Outlined: hours recorded per standard hour of output. Direct time stays below the standard in each year, while indirect time grows.
