Guided Tutorial B.1	as employee006 (Sales Manager): employees	8	8	True

5 columns, 312 rows

The Checks tab of the model answer after Home > Refresh and Run, scrolled to the 8 rows that start 'as employee006 (Sales Manager)', the rows of Guided Tutorial B.1 for the Sales Manager, 270 to 277 of the query's 312. The query runs as the file's author, so no role applies: each of these rows repeats the role's three rules as filters with the user's name typed in. Values are written to the cent, and a label longer than its column is cut at the column's edge. Outlined: Agrees, true in every row.
