

Ticks mark January 1. The invoices and the shipments end on 2026-12-31, the last day of fiscal 2026, so 2026 Q4 is the latest complete quarter. The ledger runs 526 rows further, to 2027-02-23, but they are supplier payments for earlier purchases: no sales, no shipments and so no margin. The close, JE-2026-000296, is posted on the last day of the year, inside Q4.
