Result: 15 rows returned
At line 41:
SELECT EndYear, WorkCenterName, ROUND(PlannedHours, 0) AS Planned,

Outlined: the Packing row. In 2026 it recorded 28,039 hours against 6,696 planned, 4.19 times the plan, but only 1,505 of them while its operations were open: 0.22 times. Every work center is below plan on that second ratio; Quality Assurance, with 331 planned hours, 1,328 recorded and 269 while open, reads 4.02 and 0.81. The grid is scrolled to rows 11 to 15, the work centers of 2026; the editor to the derived table and the final GROUP BY.
