

Ex 13.5 | **Ex 13.6 Draft** | Ex 13.6 Revised | +

Report view, page Ex 13.6 Draft, for fiscal 2026 except the line chart, which spans every month. The pie has five slices and no labels; the card averages the Discount of each line; the line chart's value axis starts at 1.0M, not at zero; the combo chart's discounts have an axis of their own (outlined), and its hidden filter leaves out Services, which nothing on the page says.
