Receivables aged at 2026-12-31

Bucket	Open Balance	Open Invoices
Current	3,655,971.50	780
1-30 days	745,674.84	258
31-60 days	16,711.26	28
61-90 days	405.41	10
Over 90 days	41.31	3
Total	**4,418,804.32**	**1,079**

Account 1020 by source document

SourceDocumentType	Ledger Receivables
CashReceiptApplication	-87,896,623.29
CreditMemo	-412,114.03
JournalEntry	380,000.00
SalesInvoice	92,727,541.64
Total	**4,798,804.32**

4,418,804.32	4,798,804.32	380,000.00
Open Balance	Ledger Receivables	Unreconciled Difference

-220,131.88	225
Credit Balances	Credit Balance Invoices

The difference is one line. Unreconciled Difference, 380,000.00, is the JournalEntry row of the table on the left: a line of JE-2024-000001 that no invoice supports. The other sources net to the open balance.

The credit balances stand apart. 225 invoices have applications and credit memos above their total, and their -220,131.88, recorded as customer credits, is outside the open balance. Netted in, they would add a second difference, 600,131.88, which is no new finding.

Report view, page Ex 16.1, with the as-of date 2026-12-31 typed in every query. Outlined: the JournalEntry row of the ledger table. The buckets follow BucketOrder, and both tables show Desktop's total row. The page's text box with the written answers is not drawn.
