The sample summarized, one column per category

Regular	Overtime	NotOnWorkOrder
47.14	3.42	16.62

Regular = SUM(RegularHours)

Overtime = SUM(OvertimeHours)

NotOnWorkOrder = SUM(CASE WHEN
WorkOrderOperationID IS NULL
THEN RegularHours + OvertimeHours
ELSE 0 END)

The summary totals only the six sample entries shown. The CASE expression passes the hours of the entries with no work order operation and zero for the others.
